**THE SENATE  
STATE OF MICHIGAN**

February 27, 2007

To Whom It May Concern,

I am writing this letter in support of RAC Holding Company, LLC. This company, founded by William McMurray, is dedicated to reducing the ongoing problem of firearm misuse. They produce and distribute a government approved anti-theft device that prevents the unauthorized use of personal items, especially firearms.

The product secures and locks weapons, preventing children or burglars from gaining access. Proper use of this device can significantly reduce the possibilities of accidental shootings.

RAC Holding Company works with local churches, law enforcement agencies, and non-profit organizations to help provide metropolitan and urban areas with 25,000 RAC's free of charge. They feel their product will foster the growth of safer environments for all, and that participating communities can thusly enjoy a higher level of safety and security.

I fully believe in the goals of RAC Holding Company, and admire and respect the difference they are trying to make in the community. I encourage communities and local organizations to give them all due consideration.

Sincerely,

A handwritten signature in blue ink that reads "Hansen Clarke".

Hansen Clarke  
State Senator, 1<sup>st</sup> District

CC: William McMurray
