Dear Mr. McMurray,

On September 19, 1994 I lived the worst nightmare that a mother could experience, my 14 year old son Jamar was accidentally shot by a neighborhood friend, Dwayne was playing with his mother's gun when it discharged, Jamar later died as a result of that gun shot. Jamar left behind a grieving mother and brother.

As a mother that has lost a child due to an unprotective gun, I am anti-gun. Michigan is guns state an thousands of good and bad citizens own these weapons, so the reality of this gun situation is to educate and protect. I have personally saw, touched and was quite impressed with the Rac Holding gun case, which is more advanced and secured than a trigger lock. I support Mr. McMurray in his quest to save lives, and make the Rac Holding gun case a part of a safe household. Jamar may still be with his family today if safety and the Rac were available.

This letter is in support of the Rac with hopes that a child's life can be saved when a gun is in the house.

Sincerely,
